

Enrichment for  
Grades 3-8

# 2022 Scholars Academy Program

Scholars Academy will provide additional academic support by extending learning opportunities to third through eighth grade students to accelerate learning. The integrated standards-based instruction and practice will assist students with reaching proficiency levels in the areas of reading and mathematics. The goal of the summer program is to provide an extended, hands-on enrichment beyond the traditional class schedule. Participants may also experience visual/performing art, physical and health education, world languages, and STEM.
